

TOP DOG CHALLENGE

Top Tips

TOP TIPS

1. Make sure your dog doesn't need the toilet before starting. This will help them concentrate when training.
2. Choose a quiet area without any distractions - just you, your dog and your high value reinforcer.
3. Avoid training right before or immediately after a daily event like a walk or dinner.
4. Choose a reinforcer that your dog values like their favourite treat.
5. Make sure your dog is well rested and keep training sessions short. If your dog hasn't done much training they will get tired very quickly.
6. Our dogs are just like us so they may have off days where they won't feel like training.
7. If you feel you aren't making progress go back a step and practice a few reps where your dog is succeeding before trying to add more.
8. Log in to fundraising page to view the training videos and ask any questions in the Facebook group.
9. Have fun, if you and your dog aren't having fun take a break and try again later.
